HOW TO USE THE PACK

To get the best results from the prompt library, follow these steps:

1. Personalize Variables

Whenever you see brackets, replace them with your own details:

- [niche]
- [target audience]
- [offer]
- [goal]
- [platform]

Example:

“Write 10 hooks for a [fitness coach] targeting [women aged 20–30].”

2. Use Follow-Up Prompts (VERY IMPORTANT)

After the AI gives you content, refine it:

- “Make it punchier.”
- “Rewrite in a more premium tone.”
- “Make it shorter and more modern.”
- “Add storytelling.”
- “Turn this into a carousel.”
- “Give me 5 variations.”

3. Create an AI Persona for Best Results

Use this once when starting a session:

“Act as a senior digital marketing strategist with 10 years of experience in performance marketing, content creation, and brand building. Optimize everything for clarity, creativity, and conversions.”

This instantly upgrades the AI’s output.
