Website Content**

**Chapter 5 — Product Strategy &
Feature Planning**

**Chapter 6 — Hiring, Team Management
& Leadership**

**Chapter 7 — Marketing, GTM &
Customer Acquisition**

INTRODUCTION

Building a startup is one of the most challenging — and rewarding — journeys in the world.

Founders must think fast, execute faster, and constantly adapt.

You are responsible for:

- The idea
- The team
- The product
- The pitch
- The vision
- The execution
- The growth
- The customers
- The investors
- The brand

This AI Prompt Pack is designed to help founders work smarter, make better decisions, and execute faster.

Inside, you'll find prompts that help you:

- ✓ Validate ideas
- ✓ Build your business model
- ✓ Understand your target market
- ✓ Write pitch decks & investor emails
- ✓ Plan product features
- ✓ Create brand positioning
- ✓ Manage your team effectively
- ✓ Build user acquisition systems
- ✓ Communicate vision with clarity

These prompts are practical, founder-friendly, and built for real startup problems.

Welcome to the AI advantage for entrepreneurs.

Welcome to The Prosperity Grid for Startup Founders.

HOW TO USE THIS PACK

1. Customize the Variables

Replace:

- [startup name]
- [industry]
- [target audience]
- [problem]
- [solution]
- [feature]
- [pitch type]

This ensures the AI tailors everything to your startup.

2. Use Follow-Up Prompts

Just like a co-founder, refine the output with:

- “Make it simpler.”
- “Make it investor-friendly.”
- “Turn this into a pitch slide.”
- “Rewrite in a more inspiring tone.”
- “Add examples.”
- “Make this shorter and punchier.”

STARTUP FOUNDERS PAIN POINTS & HOW AI SOLVES THEM

Pain Point → **Solution**

1. Difficulty validating ideas quickly

AI helps founders test ideas, explore markets, and evaluate feasibility.

2. Creating pitch decks takes too long

AI can outline decks, write scripts, and refine messaging.

3. Lack of clarity in vision & direction

AI structures strategy, goals, and plans.

4. Hard to analyze competitors

Prompts produce competitive matrices, comparisons, and differentiators.

5. Hiring and team building is overwhelming

AI writes job descriptions, onboarding guides, SOPs.

6. Founders struggle with marketing consistency

AI generates content, GTM plans, funnels, and acquisition strategies.

CHAPTER 1 — STARTUP IDEATION & VALIDATION

1. Idea Exploration Prompt

Generate 10 startup ideas in the [industry/niche] based on current market trends, user pain points, and emerging technologies.

2. Problem–Solution Fit Check

Evaluate whether this idea solves a meaningful problem and explain the strength of its problem–solution fit: [describe idea].

3. Target Audience Breakdown

Identify the ideal target audience for this startup idea: [idea]. Include demographics, psychographics, and key pain points.

4. Unique Value Proposition (UVP)

Write 5 different UVP options for a startup offering [solution] to [target audience].

5. Idea Feasibility Score

Assess the feasibility of this idea across market demand, competition, scalability, and monetization. Provide a 1–10 score for each factor: [idea].

6. Business Model Suggestions

Generate 5 monetization models for a startup that offers [solution] to [audience].

7. Early User Persona Creation

Create 3 detailed user personas for a startup focused on [problem/solution].

8. Risk Analysis Prompt

Analyze the top 5 risks (product, market, financial, competitive, operational) associated with this startup idea: [idea].

9. Idea Validation Checklist

Create a step-by-step checklist founders can use to validate a new startup idea in under 7 days.

10. MVP (Minimum Viable Product) Plan

Create a simple MVP outline for a startup offering [solution]. Include required features, nice-to-haves, and testing methods.

11. 1-Page Startup Concept Summary

Write a concise, investor-friendly 1-page summary describing the problem, solution, market, audience, business model, and USP of the idea: [idea].

12. Pivot or Proceed Analysis

Evaluate whether the founder should pivot or proceed with this idea based on potential challenges: [describe idea].

13. Competitor Gap Insight

Identify competitor gaps and underserved opportunities in the [industry] market relevant to this startup idea.

14. 30-Second Idea Pitch

Turn this startup idea into a sharp, 30-second pitch founders can use anywhere: [idea].

CHAPTER 2 — MARKET RESEARCH & COMPETITOR ANALYSIS

1. Market Overview Breakdown

Provide a clear market overview for the [industry] sector, including size, growth rate, trends, and emerging opportunities.

2. Target Market Segmentation

Break down the target market for a startup offering [solution] into primary, secondary, and tertiary segments with key characteristics.

3. Customer Pain Point Deep Dive

Identify and explain the top 10 pain points faced by [target audience] related to [problem].

4. Competitor Identification Prompt

List the top 10 direct and indirect competitors in the [industry] market for a startup doing [solution].

5. Competitor Strengths & Weaknesses Table

Create a strengths–weaknesses comparison table for these competitors: [competitor names].

6. Competitor Feature Comparison

Create a feature comparison matrix between my product [your solution] and these competitors: [competitors].

7. Competitive Advantage Insight

Suggest 5 potential competitive advantages my startup could build in the [industry] space, based on gaps in the current market.

8. Market Demand Validation

Analyze the demand for a solution like [your idea] and explain what factors indicate strong or weak demand.

9. Trend Forecasting Prompt

Predict the next 3–5 years of trends in the [industry] market that could affect a startup like [idea].

10. SWOT Analysis (Founder-Friendly)

Create a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats) for a startup offering [solution] to [audience].

11. Gap & Opportunity Mapping

Map out 5 unexplored market gaps or underserved user segments in the [industry] that present strong startup opportunities.

12. Market Entry Strategy

Suggest 3 possible go-to-market entry strategies for a startup launching [solution] in the [industry] market.

CHAPTER 3 — PITCHING, DECKS & INVESTOR COMMUNICATION

1. 10-Slide Pitch Deck Outline

Create a 10-slide pitch deck outline for a startup offering [solution] to [target audience]. Follow best practice formats used in YC/Sequoia decks.

2. Problem Slide Message

Write a crisp, powerful message describing the core problem this startup solves: [problem].

3. Solution Slide Message

Write a clear, compelling solution statement for [solution] that shows how it addresses the problem effectively.

4. Market Size Slide (TAM, SAM, SOM)

Break down the TAM, SAM, and SOM for a startup in the [industry] sector with [product].

5. Business Model Slide

Write a simple, investor-friendly business model explanation for a startup earning revenue through [model type].

6. Traction Slide Content

Write sample traction metrics (users, revenue, retention, growth) for a startup that is early-stage but making progress.

7. Competitive Positioning Slide

Create a competitive positioning statement and 2×2 grid explanation for [startup name] vs competitors in [industry].

8. Ask Slide (Funding Request)

Write a professional 'Ask' slide explaining how much money the startup is raising and how it will be allocated.

9. Investor Outreach Email

Write a concise, compelling email to introduce my startup to an investor and request a meeting. Highlight traction and vision.

10. Post-Pitch Follow-Up Email

Write a polite follow-up email to an investor I met with, thanking them and summarizing key points discussed.

11. Investor FAQ Answers

Write clear, confident answers to common investor questions about market size, revenue model, competition, and defensibility.

12. 60-Second Elevator Pitch

Turn this startup idea into a powerful 60-second investor pitch: [idea].

CHAPTER 4 — BRANDING, MESSAGING & WEBSITE CONTENT

1. Brand Positioning Statement

Write a clear brand positioning statement for a startup offering [solution] to [target audience] in the [industry] space.

2. Startup Tagline Generator

Generate 10 punchy tagline options for a startup focused on [core benefit].

3. Website Homepage Hero Section

Write homepage hero section copy (headline, subheadline, CTA) for a startup website offering [solution].

4. About Us Page (Startup Style)

Write an 'About Us' page explaining the startup's mission, vision, and story in a compelling, founder-led voice.

5. Value Proposition Section

Write a value proposition section explaining why users should choose [startup name] over alternatives.

6. Problem–Solution Website Section

Write a website section explaining the problem users face and how [startup name] solves it.

7. Features-to-Benefits Copy

Convert this list of product features into clear user benefits: [features].

8. Trust & Social Proof Copy

Write website copy that builds trust using testimonials, logos, numbers, or early traction.

9. Landing Page Copy (Conversion-Focused)

Write a conversion-focused landing page for a startup launching [product/feature].

10. FAQ Section for Startup Website

Generate 6–8 FAQs for a startup website, addressing common user questions and objections.

11. Brand Voice & Tone Guide

Create a simple brand voice guide defining tone, personality, and communication style for [startup name].

12. App/Platform Onboarding Copy

Write onboarding copy guiding new users through the first steps of using [product/platform].

CHAPTER 5 — PRODUCT STRATEGY & FEATURE PLANNING

1. Product Vision Statement

Write a clear product vision statement for a startup building [product] for [target audience].

2. Core Feature Identification

Identify the core features required for an MVP of [product], separating must-haves from nice-to-haves.

3. Feature Prioritization Framework

Prioritize this list of features using an impact vs effort framework: [feature list].

4. User Problem → Feature Mapping

Map each major user problem to a corresponding product feature for [product].

5. Product Roadmap (90-Day Plan)

Create a 90-day product roadmap for a startup building [product], broken into milestones.

6. MVP Scope Definition

Define the scope of an MVP for [product], including what to include and what to intentionally exclude.

7. Feature Validation Prompt

Suggest methods to validate whether [feature] is worth building before full development.

8. Product Differentiation Strategy

Explain how [product] can differentiate itself from competitors in [industry] through product strategy.

9. User Feedback Analysis

Analyze this user feedback and suggest product improvements or new features: [paste feedback].

10. Feature Trade-Off Decision

Help decide between building [feature A] vs [feature B] based on business goals and user impact.

11. Metrics That Matter (Product KPIs)

Identify the key product metrics and KPIs a startup should track for [product].

12. Product Iteration Strategy

Create a simple iteration strategy explaining how to improve the product based on user data and feedback.

CHAPTER 6 — HIRING, TEAM MANAGEMENT & LEADERSHIP

1. Role Definition Prompt

Define the responsibilities, expectations, and success metrics for a [job role] at an early-stage startup.

2. Startup Job Description Generator

Write a clear, compelling job description for a startup hiring a [role], focusing on impact, growth, and learning opportunities.

3. Hiring Criteria Checklist

Create a checklist of must-have skills, nice-to-have skills, and cultural traits for hiring a [role].

4. Interview Question Generator

Generate 10 interview questions to evaluate skills, mindset, and culture fit for a [role] candidate.

5. Candidate Evaluation Framework

Create a simple scoring framework founders can use to compare candidates objectively.

6. Offer Letter Structure

Create a professional offer letter structure for a startup hiring its first [role].

7. Onboarding Plan (First 30 Days)

Create a 30-day onboarding plan for a new hire joining as a [role].

8. Team Communication Guidelines

Write guidelines for clear, respectful, and async-friendly communication inside a startup team.

9. Performance Feedback Script

Write a constructive feedback script founders can use during performance check-ins.

10. Handling Underperformance

Write a constructive feedback script founders can use during performance check-ins.

11. Leadership Style Definition

Help define the founder's leadership style and core principles for leading a growing team.

12. Conflict Resolution Framework

Create a step-by-step framework for resolving conflicts between team members in a startup environment.

CHAPTER 7 — MARKETING, GTM & CUSTOMER ACQUISITION

1. Go-To-Market Strategy Outline

Create a clear go-to-market strategy for launching [product] targeting [audience] in the [industry] space.

2. Ideal Customer Profile (ICP)

Define the ideal customer profile for [product], including demographics, behaviors, pain points, and buying triggers.

3. Customer Acquisition Channel Selection

Suggest the best acquisition channels for a startup offering [product] and explain why each channel fits.

4. 30-Day Growth Plan

Create a 30-day growth plan outlining weekly acquisition experiments and metrics to track.

5. Content Marketing Strategy

Build a content marketing strategy that attracts, educates, and converts users for [product].

6. Launch Campaign Plan

Create a step-by-step launch campaign plan for a new product or feature.

7. Messaging for Early Adopters

Write messaging specifically tailored to early adopters explaining why [product] is worth trying.

8. Funnel Design Prompt

Design a simple acquisition funnel from awareness → activation → conversion for [product].

9. Pricing & Packaging Strategy

Suggest a pricing and packaging strategy for [product] based on value perception and market norms.

10. Retention & Engagement Strategy

Create a strategy to improve user retention and engagement after signup.

11. Referral & Virality Ideas

Generate 5 referral or virality ideas a startup could use to grow organically.

12. Growth Metrics Dashboard

List the key growth metrics a startup should track weekly and monthly to measure acquisition success.

ABOUT THE PROSPERITY GRID

The Prosperity Grid is an AI-powered digital brand designed to help professionals, entrepreneurs, and creators work smarter, earn more, and scale their business using practical, ready-to-use AI systems.

We believe AI should be simple, accessible, and beneficial for everyone.

Our mission is to create industry-specific prompt libraries, digital products, and tools that deliver real results — saving time, boosting productivity, and increasing revenue.

What We Offer:

- **Premium AI Prompt Packs for multiple industries**
- **Digital productivity tools**
- **Business growth frameworks**
- **Simple AI workflows anyone can use**
- **High-quality content for creators and solopreneurs**

Join us as we build the next generation of AI-powered business tools.
